(a nonprofit organization), which comprise the statement of financial position as of August 31, 2018, and the related statement of cash flows for the year then ended, along with the statement of activities and functional expenses for the year ended August 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Xavier Mission, Inc., as of August 31, 2018, its cash flows for the year then ended, and the changes in its net assets for the year ended August 31, 2018 in accordance with accounting principles generally accepted in the United States of America.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Accordingly, the financial statements reflect all significant receivables, payables, and other liabilities.

Financial Statement Presentation

Net assets and revenues, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the Mission and changes therein are classified and reported as follows:

Unrestricted Net Assets- Net assets that are not subject to donor-imposed stipulations.

Temporarily Restricted Net Assets- Net assets subject to donor-imposed stipulations that may or will be met either by actions of the Mission and/or the passage of time.

Permanently Restricted Net Assets- Net assets subject to donor-imposed restrictions that stipulate that they be maintained permanently by the Mission, but permit the Mission to expend the income derived therefrom.

XAVIER MISSION, INC.
NOTES TO FINANCIAL STATEMENTS
AUGUST 31, 2018

Note B - Summary of Significant Accounting Policies, continued

Revenues are reported as increases in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets.

Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation or by law. Expirations of temporary restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets.

Contributions

Contributions, which include unconditional promises to give, are recognized as revenues in the period received. Contributions are recorded as unrestricted, temporarily restricted, or permanently restricted depending on the nature of donor restrictions. Restricted contributions are reported as increases in restricted net assets. When the restriction is met the amount is shown as a reclassification of restricted net assets to unrestricted net assets. If a donor's restriction is met in the same period that the support is recognized, the contribution is reported as an increase in unrestricted net assets.

Bequests Receivable

The Mission has been named beneficiary of an estate. Bequests received under estates are not recorded until the amounts become determinable and fixed. As of August 31, 2018 and 2017, such amounts are recorded as bequests receivable on the accompanying statement of financial position. No allowance for doubtful bequests is considered necessary by management for the years ended August 31, 2018 and 2017. All bequests receivable are expected to be collected within one year.

Property and Equipment

All acquisitions of furniture and equipment, in excess of \$1,000, are capitalized. Furniture and equipment are stated at cost, if purchased, or fair value if contributed. Property and equipment are depreciated on a straight line basis over the following useful lives:

Kitchen equipment	5-7 years
Furniture and fixtures	3-5 years
Computers	3-5 years

XAVIER MISSION, INC.
NOTES TO FINANCIAL STATEMENTS
AUGUST 31, 2018

Note B - Summary of Significant Accounting Policies, continued

Income Taxes

The Mission is incorporated as a not-for profit organization and is exempt from Federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code. Therefore, no provision for income taxes has been made in the accompanying financial statements. In addition, the Mission has been determined by the Internal Revenue Service not to be a private foundation under Section 509(a) of said Code.

The Mission regularly reviews and evaluates its tax positions taken on current and previously filed tax returns, and as reflected in its financial statements, with regard to issues affecting its not-for-profit status. The Mission believes that in the event of an examination by taxing authorities, the Mission's position would prevail based on technical merits. The Mission's tax returns are generally subject to examination by the Internal Revenue Service for three years; the years 2015, 2016, and 2017.

Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses. Actual results could differ from those estimates.

Cash Equivalents

For purposes of the statement of cash flows, the Mission considers financial instruments with maturities of three months or less to be cash equivalents.

Contributed Services

The Mission does not recognize any revenue or expense from services contributed by volunteers because it does not meet the criteria for recognition under FASB ASC 958, *Not-for-Profit-Entities*.

Comparative Financial Information

The financial statements include certain prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Mission's financial statements for the year ended August 31, 2017, from which the summarized information was derived. In addition, certain prior year amounts have been reclassified to conform to the current year presentation.

XAVIER MISSION, INC.
NOTES TO FINANCIAL STATEMENTS
AUGUST 31, 2018

Note C - Fair Value Measurements

Generally accepted accounting principles define fair value, establish a framework for measuring fair value and establish a fair value hierarchy that prioritizes the inputs to valuation techniques. Fair value is a price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability, or in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

For applicable assets and liabilities subject to this pronouncement, the Mission will value such assets and liabilities using quoted market prices in active markets for identical assets and liabilities to the extent possible. To the extent that such market prices are not available, the Mission will next attempt to value such assets and liabilities using observable measurement criteria, including quoted market prices of similar assets and liabilities in active and inactive markets and other corroborated factors. In the event that quoted market prices in active markets and other observable measurement criteria are not available, the Mission will develop measurement criteria based on the best information available.

Fair value of financial assets and liabilities measured at August 31, 2018 is as follows:

	<u>August 31, 2018</u>	<u>Quoted Price in Active Markets for Identical Assets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>

Additionally, there is space available for the shelter within the confines of Xavier High School. No amount has been reflected in the statement of activities for the equivalent of rent expense as the fair market value of the space has not been determined.

A number of unpaid volunteers have made significant contributions of their time, for the purpose of raising funds and assisting with the Mission's programmatic and administrative duties. The hours contributed include hours related to attending and organizing events, serving the Mission's clients, and data entry. No amounts have been reflected in these statements for such donated services as the type of service donated does not meet the criteria of the accounting standards for assessing a value of such services.
